

# A NOTICE ON TARIFFS

TO OUR VALUED CUSTOMERS,

As a Canadian-owned and operated wholesale distributor since 1867, G.T. French has a longstanding commitment to supporting the local economy. Our policy has always been to prioritize Canadian suppliers first, followed by North American, and then other international sources as needed.

Given recent trade uncertainties, this approach has presented challenges, particularly in areas where Canadian sources are limited or unavailable. Over the years, many, including our customers, have relied on the U.S. for a reliable supply of goods.

However, the current landscape requires us to adapt and secure reliable, economical sources of supply. G.T. French remains dedicated to sourcing Canadian-made products whenever possible and mitigating the impact of recent trade uncertainties by exploring alternative sources when necessary.

During this period, we will be forced to respond to sudden and significant tariffs. We will do our best to communicate these changes to you and work in your best interests until the situation is resolved or we identify cost-effective and reliable alternatives.

If you have any questions or concerns, please contact your dedicated Sales Representative or our Customer Experience Team at G.T. French.

**SINCERELY G.T. FRENCH**
